## Code Commenting Survey

How many years have you been programming professionally?		
		Response Count
		81
	answered question	81
	skipped question	0

What kinds of software projects do you work on?			
		Response Percent	Response Count
Open source		13.6%	11
Proprietary		37.0%	30
Both		49.4%	40
	answered question		81
	skipped question		0

Are you currently working on a team?			
		Response Percent	Response Count
No		12.4%	10
Yes		87.7%	71
	answered question		81
	skipp	ed question	0

Based on your most recent team experience, how many programmers work in your team (including yourself)?		
	Response Count	
	70	
answered question	70	
skipped question	11	

Based on your most recent team experience, how are your team members distributed?			
		Response Percent	Response Count
N/A - I am working on my own		1.4%	1
Everyone is in the same hallway or office		52.9%	37
Everyone is in the same building		4.3%	3
The team is distributed across two buildings		12.9%	9
The team is distributed across more than two buildings		28.6%	20
	answere	d question	70
	skippe	ed question	11

When you are collaborating on a team has your team agreed to use the same keywords?			
		Response Percent	Response Count
I use my own keywords		16.9%	11
I use a mixture of my own keywords and my team's keywords		21.5%	14
My team has an informal agreement to use the same keywords		49.2%	32
My team has a formal commitment (or coding practices) to use the same keywords		12.3%	8
	answere	d question	65
	skippe	ed question	16

		Response Percent	Response Count
I/A - Team members use their own tools and conventions		0.0%	0
Team members use the same source code management (SCM) system		97.1%	68
Team members use the same bug tracking system		91.4%	64
Team members use a common wiki to document their code		37.1%	26
Team members use a mailing list or chat to announce changes and new pieces of code to keep track of		38.6%	27
Team members enter bug # information in source code management (SCM) check-in comments		57.1%	40
Team members use javadoc to document their code		62.9%	44
eam members use Mylar's shared task contexts		11.4%	8
Team members use a common class and variable naming scheme		57.1%	40
Team members follow a common scheme for folder hierarchies and folder names		65.7%	40
Team members use common keywords in their comments (e.g. TODO, FIXME, XXX)		67.1%	4
Other (please specify)		4.3%	;
	answere	ed question	7

Do you use Eclipse bookmarks in your source code?				
		Response Percent	Response Count	
Never		53.8%	43	
Rarely		30.0%	24	
Sometimes		15.0%	12	
Often		1.3%	1	
	answere	ed question	80	
	skippe	ed question	1	

Which of the following Eclipse task tags do you use? (Select all that apply)			
		Response Percent	Response Count
FIXME		43.0%	34
HACK		7.6%	6
TODO		97.5%	77
XXX		15.2%	12
Other (please specify)		13.9%	11
	answere	ed question	79
	skippe	ed question	2

Do you comment your code?			
		Response Percent	Response Count
No		12.4%	10
Yes		87.7%	71
	answere	ed question	81
	skippe	ed question	0

Do you add any additional details to your comments? If so, what details do you add? (Select all that apply)			
		Response Percent	Response Count
My name or initials		51.4%	36
Name or initials of other people		0.0%	0
Name of my team		1.4%	1
Name of another team		0.0%	0
Reference to another class, method, plugin, or module		64.3%	45
URL to a related web page (e.g. article, wiki page, specification, etc).		30.0%	21
Bug id		44.3%	31
Date		18.6%	13
Memorable keywords		10.0%	7
None of the above (I do not add additional details)		12.9%	9
Other (please specify)		10.0%	7
	answered question		70
	skippe	ed question	11

If you use memorable keywords, please give some examples, along with their definitions. (Please write as long an answer as you think appropriate. Each text field will expand to accommodate your response.)			
		Response Percent	Response Count
1.		100.0%	5
2.		80.0%	4
3.		80.0%	4
	answei	ed question	5
	skipp	ed question	76

Which of the following tool features do you use to navigate to source code comments? (Select all that apply)				
		Response Percent	Response Count	
Browse to find them		66.3%	53	
Hyperlinks		42.5%	34	
Search for keywords		45.0%	36	
Tasks/Bookmarks view		43.8%	35	
Ctrl-Shift-T (Open Type) and then browse/search for comment		58.8%	47	
Use an external email or personal "todo.txt"-like file to find the file and then browse/search for comment		8.8%	7	
None of the above (I do not navigate source code comments)		7.5%	6	
Other (please specify)		5.0%	4	
	answere	d question	80	
	skipped question		1	

When you scan through other people's code, what features of their comments would attract your attention and make you stop and read in more detail? (Select all that apply)					
		Response Percent	Response Count		
My name or initials		18.9%	14		
Names or initials of other people		16.2%	12		
id of a bug I am currently, or had worked on		21.6%	16		
id of a bug relevant to my team		17.6%	13		
id of any bug		25.7%	19		
Date		4.1%	3		
Memorable keywords		28.4%	21		
Comment description		66.2%	49		
Reference to another class, method, plugin, or module		33.8%	25		
URL to a related web page (e.g. article, wiki page, specification, etc).		31.1%	23		
None of the above		8.1%	6		
Other (please specify)		6.8%	5		
	answered question		74		
	skipped question		7
